### **EXAMINER'S COMMENTS**

#### ***Drawings***

The replacement Figure 4 drawing filed 10/15/2008 has been received, and is accepted by the examiner.

#### ***Oath/Declaration***

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:  
It does not identify the foreign application for patent or inventor's certificate on which priority is claimed pursuant to 37 CFR 1.55, and any foreign application having a filing date before that of the application on which priority is claimed, by specifying the application number, country, day, month and year of its filing.

Although the unsigned declaration filed 12/12/2003 contained this information, it was absent from the signed declaration filed 6/1/2004.

#### ***Terminal Disclaimer***

The terminal disclaimer filed on 10/24/2008 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,713,068 has been reviewed and is accepted. The terminal disclaimer has been recorded.

#### ***Conclusion***
